In order for the participant’s child to qualify for childcare the following guidelines must be met:

1. If the participant’s child is in full day childcare the participant must be enrolled in school full day and attending training at least three days per week.
2. If the participant’s child is in part day childcare the participant must be enrolled in training at least part time and attending training at least two days per week.
3. School age children are only eligible for part day childcare while the child’s school is in session.
4. Before any participant can be approved for childcare assistance the participant must apply for assistance through the Child Care Council and documentation of such is in the participant’s file.
5. Rates for childcare will be based on the current childcare rates that have been established by Child Care Council.

Childcare Definitions:

1. An infant/toddler is defined as birth to two years and 11 months in age.
2. A preschooler is defined as three years to five years and 11 months in age.
3. A school age child is defined as six to 12 years and 11 months in age.
4. Full day is defined as five or more hours a day that a child attends a childcare provider.
5. Part day is defined as less than five hours a day that a child attends a childcare provider.
